Dear Friends,
There are so many great things to do during the summer, here in Colorado. I love living where we have four different seasons!

One of my favorite parts of June is going to the Farmers' Markets. However, I usually have a hard time deciding what to buy. . . it all looks so good!

One of our Longmont Dairy milk trucks visits some of the markets throughout the summer. Check our website to see where we will be parked. Then, come by and have a taste of your favorite LDF product, or better yet, try tasting something new!

Twenty-three years ago, David and I got married in June. We celebrated by eating strawberries out of the garden. I hope you will enjoy our recipe for Lemon Custard Ice Cream topped with fresh strawberries. Did you know you can just pour fresh, heavy cream on your strawberries? Whipped cream is yummy too!

Take care 'til next time,

Susan Boyd

Lemon Custard Ice Cream

Lemon is so refreshing. Top with strawberries for Father's Day and make Dad smile!

- 2 cups sugar
- ¼ cup all-purpose flour
- ¼ teaspoon salt
- 4 cups LDF milk
- 4 Egg-Land's Best eggs, lightly beaten
- 3 cups heavy LDF whipping cream
- 1 cup lemon juice

Step 1: Combine the sugar, flour and salt in a large pan. Gradually add milk, stirring continually. Bring the mixture to a boil over medium heat and cook for 2 minutes, constantly stirring, until thickened. Remove from the heat and let cool slightly. Whisk a small amount of hot milk mixture into the eggs. Then return the egg mixture into the pan, whisking constantly. Cook and stir until mixture reaches 160°.

When the mixture coats the back of a metal spoon, it is ready. Remove the custard from the heat and blend in cream and lemon juice. Cool quickly by placing pan into a bowl of ice water, and stir for two minutes. Press waxed paper onto surface of custard and refrigerate for several hours. May be made one day ahead of freezing.

Step 2: Fill cylinder of your ice cream freezer two-thirds full and freeze according to the manufacturer's directions. Refrigerate remaining mixture until ready to freeze. After the ice cream is frozen, transfer to a freezer container, and freeze for 2-4 hours before serving. Yield: 2 quarts.

Top with fresh Strawberries! YUMMY!
